## **Partnering to Safeguard K-12 organizations from Cybersecurity Threats**

There is no more important institution to the future prosperity and strength of the United States than our nation's K-12 education system. K-12 schools and school districts have adopted advanced networking technologies that facilitate learning and make schools more efficient and effective. This technological gain, however, has introduced heightened risks. Malicious cyber actors are targeting K-12 education organizations across the country, with potentially catastrophic impacts on students, their families, teachers, and administrators.

## **What to know about the current cybersecurity landscape**

It should come as no surprise that cybersecurity concerns are top of mind for many business owners. Recent years have seen an increased frequency of attacks, as well as exploited vulnerabilities in the digital supply chain. The rise of remote working and other pandemic-era innovations also have opened new avenues for cybercriminals to exploit. Businesses are feeling more pressure than ever to ensure they keep their organization cybersecure.
